

Christopher Mason Womble

440 Coit Rd Apt. 12311 Plano, TX 75075 | 903-681-0329 | cmason.womble@gmail.com | <https://mason-womble.github.io/>

Education

MAY 2025 | UNIVERSITY OF TEXAS AT DALLAS

Master of Science – Social Data Analytics and Research

GPA: 3.806

- Relevant skills: Python, R, SQL, Stata, Qualtrics, Shiny

DECEMBER 2022 | BAYLOR UNIVERSITY

Bachelor of Arts – Sociology

GPA: 3.92

- Dean's List: Fall 2020 – Spring 2022

- Relevant skills: SPSS Statistics, Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)

Experience

WOMBLE FEED AND GROCERY | MAY 2018 – AUGUST 2022

- Worked summers and weekends at a family-owned business.
- Responsibilities included loading feed, operating the register, restocking inventory, balancing cash registers, and making daily deposits.

BEAR NECESSITIES | BAYLOR UNIVERSITY, WACO | 2021 – 2022

- Volunteered for food drives and public service events promoting general welfare.

Projects

MEDICAL DEVICE RESEARCH

- Collaborated on research of recall rates for pancreas-related medical devices.
- Used Python and R for data collection, analysis, and visualization.
- Produced comprehensive reports identifying trends and regional patterns of recalls.

HEALTH MISINFORMATION RESEARCH

- Conducted text analysis of news articles to identify keywords linked to misinformation.
- Employed R for Natural Language Processing (NLP), including sentiment analysis and topic modeling.
- Delivered insights through detailed reports and visualizations to inform public health communication.

ECONOMICS AND ELECTIONS RESEARCH

- Explored the relationship between U.S. presidential elections and sector-specific market returns and volatility using a custom panel dataset.
- Used R for data manipulation, visualization (ggplot2, heatmaps), and financial metrics computation (e.g., alpha, beta, Sharpe Ratio).

- Created and analyzed 10,000 simulated investment portfolios across different presidential administrations.
- Developed an interactive dashboard and multiple visual tools to support investment insights for short- and long-term decision-making.

Technical Skills

Languages & Tools: Python, R, SQL, Stata, SPSS, Qualtrics, MS Office

Techniques: Data Analysis, Visualization, NLP, Text Mining, Statistical Modeling

Organizations
